

Personally -Identifiable Information Collection and Usage Agreement

I fully understand the contents below, and agree that Yonsei Advanced Science Institute shall collect, use, and provide my personally-identifiable information to research-related institutes.

Purpose of collection and usage of personally-identifiable information is only for evaluation of applicants.

Items of personally-identifiable information collected:

CV (including name, career experiences, contact information, current address, academic background), Transcript and Personal Statement.

Period of maintenance and use of collected personally identifiable information:

Personally-identifiable information that has been collected will be kept and used for evaluation and will be destroyed thereafter.

Right to refuse and disadvantages of refusal

The applicant has the right to refuse the collection and use of personally-identifiable information. However, the refusal may result in disadvantages with respect to participating in research internship.
